Coffee and a Chat is back for the fall season with these two-part miniseries. Enjoy seeing familiar faces while discussing and learning about important health topics, all from your own home.

We’ll use video chat software to get together with local experts in brain health and aging-related fields. You can ask as many questions as you want, and afterwards we’ll have time for discussion and chitchat.

To register, go to wai.wisc.edu/milwaukee or leave a message at (414) 219-5124 with your name and email address.
