Bookcase Story

Qiyaas haweeney 70 jir ah oo qabta cudurka ilowshaha. Hada qiyaasi inay jirto agab buugeed oo buuxa oo agteeda ah. Buug kasta oo ku dhex jira shandadda buuggu wuxuu u taagan yahay mid ka mid ah xirfadaheeda ama xusuusteeda.

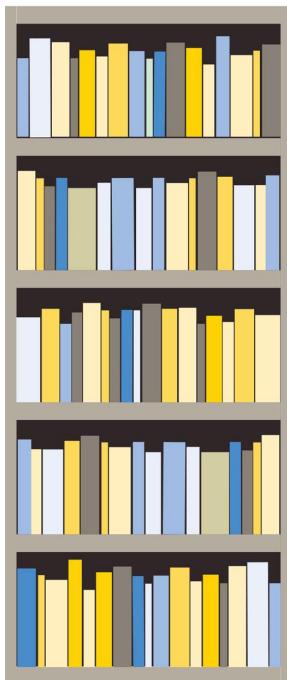

Dusha sare armaajada waa xusuusteeda ku saabsan xaqqiqa iyo xirfadeeda ay ugu fikirto siyaabo isku qasan ama qalafsan. Dadka waallida qaba, qaypta sare ama qaypta kore ee maskaxda ayaa marka hore dhaawac gaadha. Xirfadaha sida xisaabta, isticmaalka luqadda iyo ilaalinta dabeeecadda qofka ayaa ku jira qaybtan maskaxda ka mid ah. Sheekadayada buug-gacmeedka, xirfadahani sidoo kale waa buugaag ku yaal khaanadaha sare.

Marka waallida ay ruxdo sanduuqa buugta ee haweeneyda, buugaagta ku yaal qanada sare waxay bilaabaan inay soo dhacaan. Haweeneydu ma xasuusan karto wixii ay quraacda ku cuntay, ama inay ku bixinayso alaabada ka socota dukaanka dawada ama qof uu saaka u yimid inuu soo booqdo.

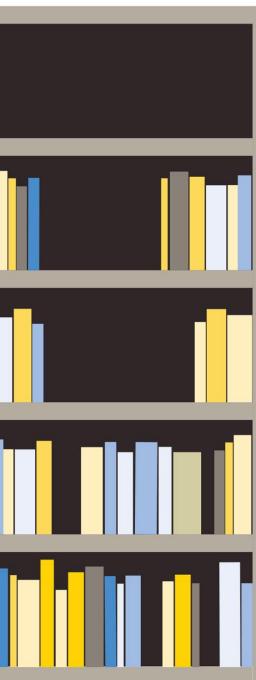

Dareenka iyo dareemadu way ku hooseeyaan qolka buugga gudihiiisa sida ay ugu jiraan qaypta hoose ama hoose ee maskaxda. Tani waa aagga maskaxda ee maskaxda. Dareennada sida jacaylka, farxadda, jahawareerka iyo xushmadda dareemaya ayaa halkan deggan. Maaddaama waallida ay ruxeyso shandadeeda buugga, buugaagta ku yaal khaanadahaan hoose waxay sii jirayaan waqtii aad u dheer.

Sheekada buug-yaraha ayaa ka caawinaysa sharraxidda xirfadaha fikirka iyo xusuusta kala duwan iyo saamaynta waallida. Xaqiicooyinka iyo fikirka adag ayaa si dhakhsa leh u dhici doona. Caadifadaha iyo dareenka ayaa sii dheeraan doona.
