

ALZHEIMER'S DISEASE *Annual Update*

For our future and theirs

2002 to 2022

20 YEARS OF EDUCATION

Wisconsin Medical Society

This webinar is being recorded.

1

The University of Wisconsin-Madison recognizes the land it occupies is on ancestral Ho-Chunk land, a place their nation has called Teejop since time immemorial. In an 1832 treaty, the Ho-Chunk were forced to cede this territory. Decades of ethnic cleansing followed when both the federal and state government repeatedly, but unsuccessfully, sought to forcibly remove the Ho-Chunk from Wisconsin. This history of colonization informs our shared future of collaboration and innovation. Today, UW-Madison respects the inherent sovereignty of the Ho-Chunk Nation, along with the eleven other First Nations of Wisconsin.

Dementia Diagnostic Clinic Network

Inception 1998, with five clinics located in Dane, Eau Claire, La Crosse, Milwaukee, and Oneida counties.

Currently, 36 affiliates in the community of practice:

- 21 counties
- 22 different healthcare systems
- Areas of medicine:
 - Neurology – 13
 - Psychiatry – 4
 - Family Practice - 4
 - Geriatrics - 11
 - Internal Medicine - 4
- Seven clinics have experience working with individuals living with an intellectual disability

wai.wisc.edu/clinic-network/

Dementia Diagnostic Clinic Network Affiliate Benefits

- Ability to network and consult with peers
- Best practice guidelines
- Interdisciplinary team approach
- Research opportunities
- A community of practice with meaningful camaraderie
- Insight into upstream research advances that will impact clinic practice
- Educational resources and training opportunities

A Need, Increase Access to Dementia Diagnostic Services

In the mid 1990's, major stakeholders throughout Wisconsin came together to discuss the growing need for dementia diagnostic evaluation services. Their efforts along with legislative action, created the backdrop for the development of the Wisconsin Alzheimer's Institute.

In 1998, in partnership with Bader Philanthropies, Inc., UW School of Medicine and Public Health, and the Wisconsin Department of Health Services, Dr. Mark Sager founded the Wisconsin Alzheimer's Institute (WAI).

WAI's inaugural vision, *increase access to quality dementia diagnostic evaluation services.*
