Hybrid Memory Choirs

**Thursday, February 2, 2023
11:30am - 1:00pm**

Wisconsin has several “Memory Choirs” that successfully evolved into hybrid programs through innovative efforts during the pandemic. These memory choirs use the power of music to move people living with memory loss and their care partners to rediscover themselves, make new friends, and contribute to their communities. This free webinar will provide an overview of three Wisconsin hybrid choir programs and the how-to steps to bring a memory choir to your community.
