WISCONSIN DEMENTIA RESOURCE NETWORK

Topic: "Growing Connections": How to Start a Full-Sensory Gardening Themed Memory Cafe in Your Community

Thursday, February 8, 2024 • 11:30am - 1:00pm

Presenter: Trisha Witham

Dementia Care Specialist of
ADRC of Barron & Rusk Counties

Adapted from the University of Minnesota's Extension Program, learn how two northwest rural counties implemented a full-sensory, gardening themed social program for people living with dementia and their care partners in 2023. We will delve into the "what is needed", "how-to's", and lessons learned. With the incredible help of community volunteers, you will gain access to resources to assist you in adapting and implementing "Growing Connections" in your community.

The virtual Zoom webinar is free; however, registration is required.
