  - The NIH Alzheimer's Clinical Trial Consortium (ACTC) START Study (sponsored by both NIH and Cognition Therapeutics).
- Dr. Carlsson was the site Principal Investigator (PI) for NIH Alzheimer's Clinical Trial Consortium (ACTC) A4 study,(sponsored by both NIH and Eli Lilly) studying solanezumab for Alzheimer's prevention, the study ended 2023
- Dr. Carlsson's involvement in the VA-funded clinical trial using Amarin Corp. study medications ended when the study was completed in 9/2023.

**All relevant financial relationships with ineligible companies have been mitigated.**

3

# Welcome

- Please access the agenda, faculty biographies, planner and faculty financial disclosures on the conference website, [wai.wisc.edu/adrdupdate/](http://wai.wisc.edu/adrdupdate/).
- Wi-Fi instructions are on the table.
- Make sure you signed in at the check-in table.
- Restroom location
- Presenter power points will be available on the conference website starting on November 20, 2024.
- The conference evaluation link will be emailed to you on Monday, your feedback is important, so please complete the online evaluation.
- Save-the-date, the 23<sup>rd</sup> Annual Update will be **September 19, 2025**, at UW-Madison's Memorial Union.

4

The conference is jointly provided by:

Wisconsin Alzheimer's Institute

Wisconsin Alzheimer's Disease Research Center

Wisconsin Geriatric Education Center

Wisconsin Medical Society

# Land Acknowledgement

The University of Wisconsin-Madison recognizes the land it occupies is on ancestral Ho-Chunk land, a place their nation has called Teejop since time immemorial. In an 1832 treaty, the Ho-Chunk were forced to cede this territory. Decades of ethnic cleansing followed when both the federal and state government repeatedly, but unsuccessfully, sought to forcibly remove the Ho-Chunk from Wisconsin. This history of colonization informs our shared future of collaboration and innovation. Today, UW-Madison respects the inherent sovereignty of the Ho-Chunk Nation, along with the eleven other First Nations of Wisconsin.

*Our Shared Future*

## Statement of Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Wisconsin Medical Society and Wisconsin Alzheimer's Institute. The Wisconsin Medical Society is accredited by the ACCME to provide continuing medical education for physicians.

## AMA Credit Designation Statement

The Wisconsin Medical Society designates this live activity for a maximum of 2.75 AMA PRA Category 1 Credit(s)<sup>™</sup> for Thursday's WAI-Affiliated Dementia Diagnostic Clinic Network Fall Hybrid Meeting and a maximum of 6.0 AMA PRA Category Credit(s)<sup>™</sup> for Friday's Conference. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**This educational activity has received no commercial support.**

# Dementia Diagnostic Clinic Network

## A Shared Community of Practice

- Sager Model, interdisciplinary team
- Inception, 1998 with 5 clinics
- Today, 32 clinics in 20 counties
- 19 different healthcare systems
- Areas of medicine
 

Neurology – 11	Family Practice – 3
Geriatrics – 10	Internal Medicine - 2
Psychiatry – 5	Geriatrics/Psychiatry- 1

## Welcome to the Dementia Diagnostic Clinic Network

- Patrick Britton, MD
- Ashley Dolhun, RN
- Patty Garcia, APSW
- Angela Gleason, PhD
- Makenzie Hatfield Kresch, MD
- Miljen Jagodic, MD
- Alison Jahn, PhD
- Sarah Keating, PhD
- Katheryn Krieg, MD
- Eric Larson, PhD
- Jon Lehrmann, MD

Milwaukee VA Geropsychiatry  
Residency Clinic

## WAI's Cognitive Assessment Expansion

- 1998 Dementia Diagnostic Clinic (Sager Model)
- 2024 Primary Care Visit
- 2025 Evaluating Cognitive Changes in  
Primary Care Webinar
- 2026 Triage Clinic

## Wisconsin Alzheimer's Institute's Interprofessional education in assessing & managing BPSD

**Goal:** To identify gaps and needs in managing behavioral and psychological symptoms of dementia (BPSD) among healthcare workers, to tailor educational resources to meet these needs.

### Why Is This Important?

- The majority of persons living with dementia experience BPSD.
- BPSD can worsen quality of life for persons living with dementia and their caregivers.
- An effective educational program could increase knowledge and self efficacy among healthcare workers to improve BPSD identification and management.

### How You Can Help:

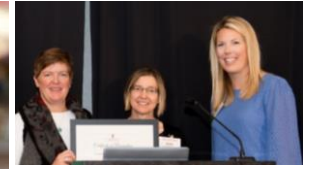

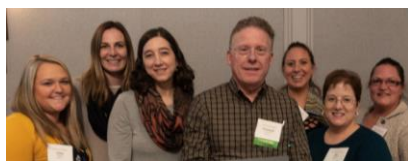

- Complete a brief 15 minute survey (scan QR code) to help us understand how to best tailor education for the identification and management of BPSD.

For more information, contact **Molly Schroeder** at 608-262-6910 or [mjschroeder3@wisc.edu](mailto:mjschroeder3@wisc.edu)
