

Memory Link numbers March to September

What are Participants Looking for

- How do I keep my loved one from isolating themselves?
- Why does my loved one do this?
- How do I keep my loved one safe?
- Driving and Memory Loss
- How do we navigate family dynamics?
- Caregiver Coaching and Education
- Communication Techniques
- Maintaining Independence
- Understanding Behaviors as Communication
- Resources for Home Modifications
- When is it time to transition to long-term care?

Where do we get referrals from?

- Google search
- Word of Mouth
- Mosaic Health
- Network Health
- Our Other Programs
- Thrivent
- Thedacare

Successes

- **Participation has exceeded our expectations**
- **Feedback has been very positive**
- **Care Partners and Care Receivers are thankful and relieved that they can contact us for community resources and to talk about challenges they are facing**
- **Memory Link has connected participants living in rural areas to our other programs**

Challenges

Care Partners are so overwhelmed reaching out for support is another item on their to do list

Getting Connected with healthcare clinics and primary care doctors

Getting awareness of our programs to rural areas
